

Tilly's, Inc. Announces First Quarter Operating Results

June 2, 2022

Introduces Fiscal 2022 Second Quarter Outlook

IRVINE, Calif.--(BUSINESS WIRE)--Jun. 2, 2022-- Tilly's, Inc. (NYSE: TLYS, the "Company") today announced financial results for the first quarter of fiscal 2022 ended April 30, 2022.

"Our first quarter operating results were in line with our outlook and were an improvement compared to our pre-pandemic performance in the first quarter of fiscal 2019," commented Ed Thomas, President and Chief Executive Officer. "We continue to focus on growing and improving our business over time, despite the near term challenges of the highly inflationary environment and lapping last year's record-breaking results, which were fueled by unprecedented pandemic-related factors."

Fiscal 2022 First Quarter Operating Results Overview

The following comparisons refer to the Company's operating results for the first quarter of fiscal 2022 ended April 30, 2022 versus the first quarter of fiscal 2021 ended May 1, 2021. For additional context, the Company is also reporting select operating results for the first quarter of fiscal 2022 relative to the same period of fiscal 2019 due to the unique operating environment resulting from the COVID-19 pandemic and the impact of government stimulus payments during fiscal 2021.

- Total net sales were \$145.8 million, a decrease of \$(17.4) million or (10.7)%, compared to a Company first quarter record of \$163.2 million last year. Total comparable net sales, including both physical stores and e-commerce, decreased by (13.0)%. Last year's results benefited from the impacts of pent-up customer demand following the winding down of 2020 pandemic restrictions and the pandemic-related federal stimulus payments.
 - Net sales from physical stores were \$117.5 million, a decrease of \$(10.2) million or (8.0)%, compared to \$127.7 million last year with a comparable store net sales decrease of (10.8)%. Net sales from stores represented 80.6% of total net sales compared to 78.3% of total net sales last year. The Company ended the first quarter with 241 total stores compared to 238 total stores at the end of the first quarter last year.
 - Net sales from e-commerce were \$28.3 million, a decrease of \$(7.2) million or (20.3)%, compared to \$35.5 million last year. E-commerce net sales represented 19.4% of total net sales compared to 21.7% of total net sales last year.
 - Relative to the pre-pandemic first quarter of fiscal 2019, total net sales increased by \$15.5 million, or 11.9%, from \$130.3 million during that period. Total comparable net sales increased by 5.8% with a slight decline from physical stores of (0.7)% and an increase from e-commerce of 42.3%, reflecting the general shift in consumer behavior towards online shopping over the past three years.
- Gross profit was \$43.8 million, or 30.1% of net sales, compared to \$54.8 million, or 33.6% of net sales, last year. Buying, distribution and occupancy costs deleveraged by 190 basis points collectively, despite decreasing by \$(1.0) million in total due to carrying these costs against a lower level of net sales this year compared to last year. Product margins declined by 160 basis points versus last year primarily due to a more normalized markdown rate compared to last year's elevated level of full-price selling. Relative to the pre-pandemic first quarter of fiscal 2019, gross margin was 270 basis points better than in 2019 with lower occupancy costs and 10 basis points of improvement in product margins.
- Selling, general and administrative ("SG&A") expenses were \$42.7 million, or 29.3% of net sales, compared to \$40.0 million, or 24.5% of net sales, last year. Of the \$2.7 million increase in SG&A expenses, \$2.0 million was due to higher store payroll and related benefit costs, primarily from wage inflation. The Company's average rate per store payroll hour increased by 6.5% over last year's first quarter. Additionally, \$1.6 million was attributable to a credit from the reversal of a disputed California sales tax assessment in last year's first quarter. Partially offsetting these increases was a reduction in corporate bonus expense of \$1.6 million due to the lack of a bonus accrual in fiscal 2022. Relative to the pre-pandemic first quarter of fiscal 2019, SG&A was \$7.2 million higher, primarily due to wage inflation, e-commerce marketing and fulfillment costs associated with online net sales growth, and increased insurance premiums.
- Operating income was \$1.1 million, or 0.8% of net sales, compared to \$14.9 million, or 9.1% of net sales, last year. Operating income was \$146,000, or 0.1% of net sales, in the pre-pandemic first quarter of fiscal 2019.
- Income tax expense was \$0.3 million, or 26.9% of pre-tax income, compared to \$3.8 million, or 25.7% of pre-tax income, last year.
- Net income was \$0.8 million, or \$0.03 per diluted share, compared to a Company first quarter record of \$11.0 million, or \$0.36 per diluted share, last year. Weighted average diluted shares were 31.0 million this year compared to 30.5 million last year. Net income was \$0.7 million, or \$0.02 per diluted share, in the pre-pandemic first quarter of fiscal 2019.

Balance Sheet and Liquidity

As of April 30, 2022, the Company had \$111.0 million of cash and marketable securities and no debt outstanding. This compares to \$157.6 million at the end of the first quarter last year, and no debt outstanding. Since the end of last year's first quarter, the Company has paid aggregate special cash dividends to stockholders of \$61.6 million. During the first quarter of fiscal 2022, the Company repurchased 892,033 shares of its common stock for a total of \$8.2 million pursuant to its previously announced stock repurchase program.

The Company ended the first quarter with inventories per square foot up 12.7% relative to the end of the first quarter of fiscal 2021, due in part to continuing supply chain challenges and ending last year's first quarter with inventories below the prior year due to the unanticipated net sales growth last year. The Company expects its inventory levels to be more consistent with its sales performance by the end of the third quarter.

Total capital expenditures for the first quarter were \$2.6 million compared to \$5.5 million last year, the decrease being primarily due to earlier store openings last year. For fiscal 2022 as a whole, the Company expects its total capital expenditures to be in the range of \$23 million to \$25 million.

Fiscal 2022 Second Quarter Outlook

As customers continue to suffer from high inflation and energy costs, the Company's fiscal 2022 second quarter total comparable net sales through May 30, 2022, including both physical stores and e-commerce, decreased by 17.0% relative to the comparable period of 2021. Based on current and historical trends, the Company currently estimates that its fiscal 2022 second quarter net sales will be in the range of \$170 million to \$175 million with product margins approximately 200-250 basis points below last year due to the historically high level of full-price selling during fiscal 2021. The Company expects the combination of buying, distribution and occupancy costs to deleverage by approximately 270-320 basis points relative to last year primarily due to carrying these costs against a lower level of total net sales. The Company expects its SG&A to be approximately \$47 million to \$48 million, its operating income to be in the range of approximately \$6.0 million to \$8.5 million, and earnings per diluted share to be in the range of \$0.14 to \$0.20 with weighted average diluted shares of approximately 30.2 million for the second quarter of fiscal 2022. This compares to a Company second quarter record for net sales of \$202 million and earnings per diluted share of \$0.66 for the second quarter of fiscal 2021, which doubled the previous Company record for second quarter earnings per share. The Company expects to have 242 total stores open at the end of the second quarter, a net decrease of two stores from 244 total stores at the end of fiscal 2021's second quarter.

The current business environment remains subject to many unpredictable risks and uncertainties including with respect to, among others, the COVID-19 pandemic, the current inflationary environment, continuing supply chain difficulties, labor challenges, geopolitical concerns, and how consumer behavior may change relative to any of these factors as well as last year's historic anomalies of pent-up demand coming out of pandemic-related restrictions and federal stimulus payments. As a result, the Company's estimates concerning its projected business performance may change at any time and there can be no guarantee that the Company's current estimates will be accurate.

Conference Call Information

A conference call to discuss these financial results is scheduled for today, June 2, 2022, at 4:30 p.m. ET (1:30 p.m. PT). Investors and analysts interested in participating in the call are invited to dial (877) 407-4018 (domestic) or (201) 689-8471 (international). The conference call will also be available to interested parties through a live webcast at www.tillys.com. Please visit the website and select the "Investor Relations" link at least 15 minutes prior to the start of the call to register and download any necessary software. A telephone replay of the call will be available until June 9, 2022, by dialing (844) 512-2921 (domestic) or (412) 317-6671 (international) and entering the conference identification number: 13729765.
